Hi Allen/Sonja:

The following is an update of medical appointments that Suzanne has seen, continues to see or has been referred to:

- Suzanne also had a follow-up appointment with Dr. Rodriguez the Neuro Ophthalmologist on May 25, 2015, and is scheduled to see him again in November 2015. There has been no changes since Suzanne's last appointment.
- Suzanne continues to see Ruth Locis MSW, RSW Registered Social Worker with Acquired Brain Injury Program, usually on a weekly basis, but during this summer it has sometimes been bi-weekly.
- Suzanne continues to be under the care of Dr. Rathbone and is scheduled to see him next month.
- As you know, Suzanne has seen Dr. Rose Giammacro 2x.
- Suzanne was referred to the Queenston Physiotherapy for Vestibular rehabilitation. She was under the care of someone by the name of Elizabeth. She had a Vestibular rehabilitation assessment done on April 20, 2015. She attended sessions on May 4, 2015 and June 23, 2015. She had her final assessment done on June 30, 2015. The treatment was not successful and they said that there was nothing more that they could do for her, and told her to keep doing the exercises at home.
- Suzanne was referred to the Anxiety Treatment & Research Clinic by the Acquired Brain Institute to help address her depression, anxiety about being hurt, and trust issues she now has (especially with those in the medical field). I took her for a two hour assessment on June 24, 2015. As a result of this assessment, Suzanne received two additional referrals within the Anxiety Treatment & Research Clinic:
 1. A referral to Dr. Swinson, Psychiatrist, for a consultation and to review the treatment plan. This appointment is scheduled for September 22, 2015.
 2. A referral for a 12 week one-on-one anxiety program with Dr. Michael Frey, which is scheduled to start on September 11, 2015.

Those are all the updates for now.

Kindest regards,
Teresa
